

JITENDRA JANGID

MONTHLY MEETING – APR 2024

PROJECT:-

- SOLAPUR LMS
- SUPABASE DEMO PROJECT
- HSNC ADMISSION

PREVIOUS MONTH WORK

SOLAPUR LMS PROJECT

- Teachers, admin and superadmin data will appear according to logged user like superadmin will see whole data while specific admins and teachers will see data according to college enrolled.
- Added loader in while file is sending in chat tab.
- When superadmin adding admin then role was not properly assigning did changes accordingly and In superadmin add admin tab functionality not working and filter through colleges.
- Superadmin and admin both side teachers is not filtered and visible properly because in database college is saving in array so resolved issue.

SUPABASE DEMO PROJECT

- Supabase basic implementation with magic link login in a angular project and implemented crud operation with angular client and supabase.
- Did connection of supabase with server side of nodejs and express js project and implemented crud operation with proper checking of row level security.
- Created view, trigger, index, stored procedure function in supabase and checked where to see logs etc.

CURRENT WORK

➤ HSNC ADMISSION PROJECT

- Management Quata tab UI changes.
- University applciations tab data is not coming properly .
- Data will come in descending order or university application tab and add academic year dropdown and add search filter in university application tab.

NEXT MONTH WORK

- Student dashboard corosole images dynamic based on admission Types.
